## Document Format Reference Tables

This document contains several reference tables that summarize common file formats, their characteristics, and typical use cases. It is designed to test how table-heavy documents are handled during format conversion.

### Table 1: Document Formats

| Format | Extension | Open Standard | Max File Size |
|---|---|---|---|
| **Word Document** | .docx | Yes (OOXML) | No hard limit |
| **PDF** | .pdf | Yes (ISO 32000) | 10 GB (theoretical) |
| **OpenDocument Text** | .odt | Yes (ODF) | No hard limit |
| **Rich Text Format** | .rtf | Published spec | No hard limit |
| **Plain Text** | .txt | N/A | OS-dependent |

### Table 2: Image Formats

| Format | Extension | Compression | Transparency | Animation |
|---|---|---|---|---|
| **JPEG** | .jpg | Lossy | No | No |
| **PNG** | .png | Lossless | Yes | No |
| **WebP** | .webp | Both | Yes | Yes |
| **GIF** | .gif | Lossless (LZW) | Yes | Yes |
| **BMP** | .bmp | None | No | No |
| **TIFF** | .tiff | Both | Yes | No |

### Table 3: Audio and Video Formats

| Format | Type | Common Codecs | Typical Use |
|---|---|---|---|
| **MP4** | Video | H.264, H.265, AAC | Web streaming and downloads |
| **MKV** | Video | H.264, VP9, FLAC | High-quality video archiving |
| **WebM** | Video | VP8, VP9, Opus | Browser-native video |
| **MOV** | Video | ProRes, H.264, AAC | Professional video editing |
| **MP3** | Audio | MPEG Layer 3 | Music and podcast distribution |
| **WAV** | Audio | PCM (uncompressed) | Professional audio editing |

| | | | |
|---|---|---|---|
| **FLAC** | Audio | FLAC (lossless) | Lossless music archiving |

These tables provide a high-level overview of the most common file formats encountered in document, image, and media conversion workflows.
